

WORLD TOUR
2019

Level 1

Welcome to the #FMEWT 2019

Why are we here today?

Safe Software
exists so that organizations can
maximize the value of data.

Our Geospatial Beginnings

25 years ago, we started out helping forestry companies exchange data in the SAIF format with the BC government.

What we do today

safe.com/solutions/

FME 2019 is for the Enterprise

Mission: to make FME a platform for *enterprise-level application integration*.

- **Technology** advances and platform
- **Business Models** pricing and flexibility
- Marketplace in **FME Hub**

A stylized, wireframe cityscape at night. The buildings are rendered in a dark blue color with glowing yellow and white lines representing windows and structural elements. The sky is a deep purple and blue, with a few stars visible. The foreground is a grid of glowing purple lines that recede into the distance, creating a sense of depth. The overall aesthetic is reminiscent of early computer graphics or a digital city.

Ready. Set. DEMO.
